

Sacred Ceremony

That do you need to know?

Preparation for ceremonial ritual

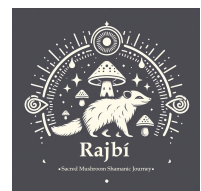

Introduction

Welcome to the sacred ritual of Los Niño Santos in Huautla de Jiménez, Oaxaca, and I invite you to immerse yourself in the depth of your being during the ritual of Los Niños Santos, an experience that transcends the physical to connect with the divine.

On this spiritual journey, it is essential to consider the following aspects for a transformative experience

Clear Intentions

Participation in the Los Niño Santos ritual is a sacred calling. Approaching this journey with an honest and clear intention is essential to achieving a deep and synchronous connection with these mystical beings, allowing you to achieve sublime spiritual communion.

Spiritual Consciousness

Approaching this ritual with a genuine interest in spiritual exploration and its manifestations is crucial. Honoring the cultural identity of the Mazatecs and their worldview is an essential part of this shared experience.

The Spiritual Guide - The Curandera

The ceremony is guided by an enlightened being, native to the mystical lands of Huautla de Jiménez. By participating, you embark on a journey of connection with the spiritual plane, where the Healer will guide you towards the discovery of your own inner paths.

Expectations

This ritual is an immersion in the Mazatec culture and spirit that will connect you with your inner universe. The Holy Children are mirrors of your heart, reflecting your experiences in harmony with the spirits, your energy and your intentions. The goal is to facilitate a spiritual awakening, allowing our physical being to become sensitized and reach spiritual dimensions for self-healing, which can manifest in unique sensations, emotions or visions.

Sacred Medicine

In the Mazatec tradition, the “Holy Children” (Psilocybes Mushrooms) are the medicine that connects us with the spiritual. They grow in our sacred mountains and are collected by those with the gift and ancestral responsibility to find them. These guardians deliver the medicine to the Curandera, who preserves it in its purest form, sometimes naturally dehydrated, without preservatives, ready for your sacred encounter.
